

Participant Enrollment

Participant Enrollment

- Participants must apply to the program and complete a multi-step process in order to enroll
- Participants must meet medical, technical, and financial eligibility requirements
- They must have a signed and approved Plan of Service (POS)
- Participant and Providers must sign the POS
- Department approves the plan to authorize services

No services can begin without an approved POS and the

participant being enrolled

Participant Enrollment

Supports Planners act as case managers for the participants

- Coordinate community services and supports for participants
- Develop and get signatures on the plan of service
- Complete the participant's enrollment process
- Communicate with providers about the plan of service
- Initiate and terminate services as necessary based on participant needs and interests

Participant Enrollment
